

IMPASSABLE

Special Issue #10

March 22, 1977

Circulation: 30

Impassable is a tri-weekly journal of postal Diplomacy, edited and published by John H. Boyer, 117 Garland Drive, Carlisle, PA 17013. PH: (717) 249-1343. There are no subs and no openings.

Diplomacy is a registered trademark for a game invented by Allan B. Calhamer and copyright by Avalon Hill, 4517 Harford Rd., Baltimore, MD 21214.

THESE SPECIAL ISSUES

Impassable has reverted to its old format, although issues will be strictly limited to games plus anything I desire to print at the time. This issue is still being electronically stenciled, but we will sooner or later start using the wax stencils we were never able to sell (if they're still good).

Where I work is back on overtime and so for this issue I must be a bit late and very brief.

P.S. "Special Issue #10" refers to a continuation of an early series of single-sheet issues of Impassable which were put out when I made mistakes. They went up to nine issues and stopped about two years ago when I learned how to cut my errors to minor ones.

Fall 1911 & Draw Vote due Friday, April 9, 1977

We have a new local wargaming club and going to their meetings has used up more of my time than I wanted, but it has nevertheless been enjoyable. Will get around to persuading them to test out my Civil War game rules...

Just received a few days ago literature from Larry Peery about his Diplomacy publications. My advice is: AVOID THIS PERSON LIKE THE PLAGUE. He has dropped out two times already and took quite a few checks for his Diplomacy publications (series on the game itself--not gamezine) along with him. I have not heard of anyone getting their money back, and to boot, his first two volumes (Austria and England, I believe) were lousy and got poor reviews. AVOID THIS MAN!

Well, it's time to go and will wait for your orders. Remember that it will be Good Friday on April 9th and so mail earlier than usual!
Cheers.

EDITORIAL RAMBLINGS

Might as well as fill this page!
Hmm...I have been receiving many, many notes from people praising me for the way I am rationally ending Impassable. I can only say thank-you in print here as it has been too much to reply personally to all.

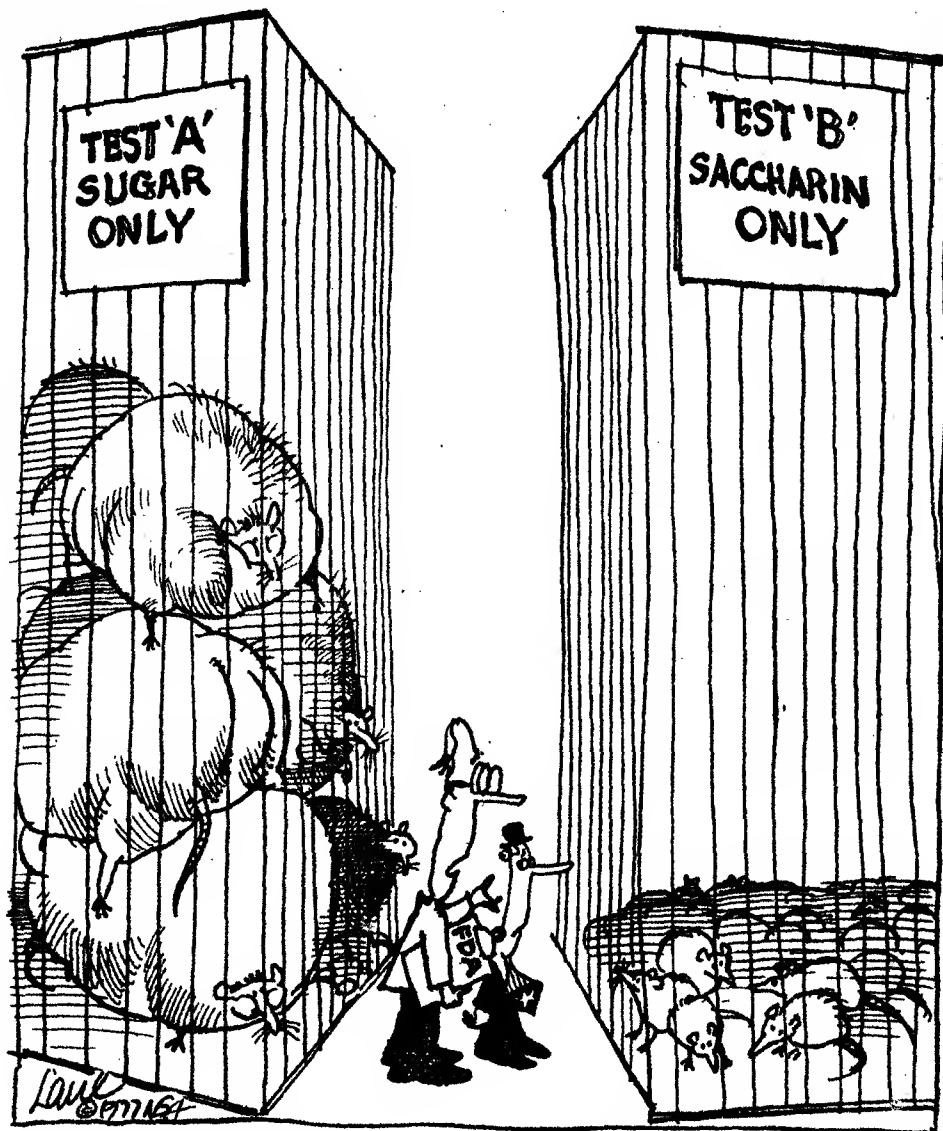

I will be paying off subscribers via use of stamps with any rounding off in their favor. Canadian subbers will be hearing from me personally later on. I must first get ahold of Canadian money and/or stamps!

To the right is a copy of a cartoon which appeared recently in our local papers. I can only say that ~~the Canadian government~~ is causing us ~~travels problems~~. Anyhow, it seems that governments in general cause more problems than they fix...

Work on Glory Road slowed down due to our resumption of overtime work, but I will be getting back to that next weekend.

I have entered myself in two new postal games of Diplomacy, and will get around to subscribing to a few of my favorite gamezines to keep in touch with the hobby.

Though I am beginning to become rather disgusted with the state of the hobby, I'm not really going to withdraw totally, at least for now.
